

Internship Program

Company Background

Syntecxhub is a forward-thinking company that bridges learning with practical experience. We provide internship projects across exciting fields like **Web Development, UI/UX Design, Frontend & Backend Development, Data Science**, and more, helping students gain real-world skills.

Our internships offer mentorship, hands-on tasks, and exposure to live projects, enabling students to enhance their knowledge, build confidence, and prepare for successful careers.

BACK-END Development

Instructions

- Share your internship status on **LinkedIn** and mention **@Syntecxhub**.
- Upload your **entire source code** to **GitHub**, creating a repository named: **Syntecxhub_Project_Name**.
- You will receive **weekly tasks** that must be completed and submitted via the **Submission Form** within the given time.
- **you are required to complete at least one project.** Completing **multiple projects** is optional but **highly encouraged**, as it **demonstrates initiative and a deeper interest in learning**.

Project - 1

Role-Based User Management API

- Extend user model to have roles (e.g. admin, user).
- Protect routes so only admin can access certain endpoints.
- Middleware to check role from JWT.
- Provide endpoints for admin to manage users (block, promote).
- Log actions (optional) in audit log.

 **Example : Link**

Project - 2

Activity Log / Audit Trail API

- Whenever a sensitive action occurs (user update, deletion), log the action (who, when, what).
- Store logs in MongoDB collection.
- Provide endpoints to fetch logs (filter by user, date, action).
- Optionally, link logs to original resources.
- Secure the log-fetching endpoints (admin only).

 **Example:** **Link**

Project - 3

Scheduled Tasks API

- Set up scheduled jobs using node-cron (or similar).
- Example tasks: delete stale records, send email summary.
- Expose an endpoint to list scheduled jobs or trigger them manually.
- Log job execution results (success/failure).
- Handle scheduling intervals and error catching.

 **Example : Link**

Submission Details

- 
- Each task consists of **three projects**. Every intern is **required to complete and submit at least one project** from each task.

- Completing all assigned weekly tasks is **mandatory** to successfully finish the internship. If an intern fails to complete the required projects, the internship will be considered **incomplete**, and the **certificate will not be issued**.

- Please ensure that all completed projects are submitted through the official **Submission Form** to confirm your **successful participation in the internship program**.

Thank You.
